

EXPERIENCE A KEYNOTE LIKE NO OTHER

WYLIE DAVIDSON

MOTIVATIONAL SPEAKER, WORKPLACE CULTURE SPECIALIST

Leaving a Safety Legacy

"Wylie offers much more than a safety message!"

What is Leaving a Safety Legacy all about?

This presentation addresses two of the hardest challenges many companies face today: **Compliance** and **Engagement**.

By challenging the status quo and the "what's in it for me" mentality, this message effectively helps attendees overcome those obstacles by having them walk away with a clear understanding of how their safe actions impact themselves, as well as others, and allows them to make a personal connection to the reasons why it's important to be safe.

"I have never had a speaker that I connected with as much as Wylie!"

What can attendees expect?

In this presentation Wylie utilizes both his training as well as real-world experiences that he has gained, to share with the audience the perfect mix of high energy, humor, and insight that attendees enjoy and take away from.

Wylie's infectious presentation style and thought-provoking anecdotes connect with the audience on a personal level, creating valuable tools for both the company and the employee, that they can implement immediately after the session.

"Your presentation resonated deeply across all levels of experience!"

Who benefits most from this session?

One of the best takeaways of this presentation is that every attendee can relate to it at some point on a personal level. From entry level employees to C-Suite executives, this message has something for everyone. By challenging them to reflect on ways that they can give back to those around them, attendees discover what is most important to them and as a result helps them close the gap between having to be safe and intrinsically wanting to be, ultimately creating their own safety legacy.
